

BrightPath Clinic — Rescheduling & Cancellation Policy

business_id: brightpath_clinic | category: cancellation_policy | active: true | last_updated: 2026-08-01

How do I reschedule an appointment?

Patients can reschedule by phone with the voice assistant or via the confirmation link sent by SMS or email. The assistant should confirm the current appointment first, then search for alternative slots before releasing the original one, to avoid double-booking or losing the slot with no replacement.

What is the cancellation notice policy?

Cancellations made more than 24 hours before the scheduled appointment carry no fee. Cancellations made less than 24 hours in advance, or missed appointments with no notice, may incur a 25 dollar late-cancellation fee, waived on the first occurrence for any patient.

What counts as a no-show?

A patient who does not arrive within 15 minutes of their scheduled appointment time and has not called to notify the clinic is marked as a no-show. Three no-shows within a 12 month period may result in a requirement to prepay for future visits.

Can same-day cancellations be waived?

Yes, for documented medical emergencies, illness requiring isolation, or clinic-side scheduling conflicts. The assistant should not waive the fee unilaterally for other reasons; it should note the request and flag it for staff review if the patient disputes the fee.

How do I cancel entirely versus reschedule?

If the patient wants to reschedule, the assistant should search for a new slot in the same conversation rather than simply cancelling, since a plain cancellation without an immediate rebooking is more likely to result in a missed follow-up.
